

CAREWare Spring build 2026 Patch Notes

These are the fixes between February 3, 2026 and June 16, 2026.

7	6	43	48
Security	Feature Request	Bug Fix	QOL

Highlights

Security	Strengthened PII handling, permission boundaries, dependency hygiene, and credential behavior.
Reporting	Updated ADR, RSR, NASTAD, custom reporting, and export/import behavior.
Accessibility	Improved keyboard navigation, screen-reader labels, contrast, focus order, and WCAG alignment.
Interface	Expanded Bootstrap 5 UI work and refined menus, grids, columns, buttons, and navigation.

Change Labels

Each item is grouped by its primary user impact. CMS reference numbers are included for support traceability.

Security

Privacy, permissions, dependency hygiene, and credential-related hardening.

Label	Fix	Reference
Security	Completed ADR 2026 dependency security scan.	CMS 22445 Mar 20, 2026
